

REMARKS

Claims 77-87 are pending in the application. Applicants note with appreciation that claims 77-87 are allowed.

The disclosure was objected to because there is no description of the "mirror attachment" (claim 77, line 9). Accordingly, the disclosure is amended at paragraph 0024 to state that "In this embodiment the mirror surface 22 is part of a mirror attachment 21 and the same is fitted onto a frame 12 to form a mirror interior (40). Support for this recitation is found in original claim 12, which recites: "12. A mirror as set forth in one of claims 1 through 10 characterized in that the mirror surface (22) is part of a mirror attachment (21) and same is fitted onto a frame (12) to form a mirror interior (40)." Support for this recitation is also found in original Figures 3 and 4. No new matter has been added.

The drawings were objected to under 37 CFR 1.83(a) for failing to show the "mirror attachment" (claim 77). This objection is respectfully traversed.

The present application discloses several different embodiments. In a first embodiment the mirror surface 22 is part of a mirror insert 20 which is associated with a frame 12, forming a mirror interior 40. An example of this first embodiment is shown in Figures 1 and 2, which include an illustration of an example of the mirror insert 20.

In a second embodiment the mirror surface 22 is part of a mirror attachment 21 and the same is fitted onto a frame 12 to form a mirror interior 40. An example of this second embodiment is shown in Figures 3 and 4, which include an illustration of an example of the mirror attachment 21. The mirror attachment 21 is clearly labeled element 21 in Figures 3 and 4, reproduced immediately below.

Accordingly, applicants respectfully submit that the drawings are in compliance with 37 CFR 1.83(a) because the drawings do clearly show an example of the "mirror attachment" recited in claim 77.

In view of the above the presently pending application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to pass this application to issue. If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 606682000100.

Dated: September 5, 2008

Respectfully submitted,

By
